FAASTeam presents:

Monthly VMC Club Meeting - Flying into IMC for VFR pilots

You're a conscientious pilot, always doing a preflight inspection, getting weather briefing before flying.

What about when the weather is not as forecast? Conditions are not what you expected? Clouds are lower than expected? What do you do now? We will have a couple of scenarios to view. Let's discuss alternatives and options

VMC Club, through its nationwide chapters, provides organized "hangar flying" focused on building proficiency in VFR flying. Believing that safety and proficiency are developed through education and experience. Monthly meetings use real world scenarios to engage our members and allow them to share and build their experience. For all pilots, student pilots and anyone thinking about flying. Bring iPad or other device to view charts. Click on the link below and register TODAY.

Directions: Seminar will be held in the WINGS of Carolina hangar facility.
As you enter the airport, turn right on Ammons Farm Road. With the fence on the left, look for Wings of Carolina banner on left, turn into gate, Wings of Carolina building is on your left just before you enter the South airplane ramp.
When flying in, park in any of the spots with tiedown ROPES

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
