

FAA Safety Team presents:

Use of Online Weather Information and Review of ICAO Flight Plan

We will discuss where to obtain information for an online self-briefing.

This will include where to find and how to use preflight planning information from 1800WxBrief.com, AviationWeather.gov, and PilotsAndWeather.com/ssr.html. Now that the International Flight Plan form, FAA Form 7233-4, is required for all U.S. flight plans, we will review how that form is completed including new items that identify the aircraft's navigational equipment.

Flight Instructors, Ground Instructors, Designated Pilot Examiners, and Instructors in training are welcome and encouraged to attend. The presentation is open to all pilots. Click the link below and register TODAY.

Directions: Enter airport grounds from Rod Sullivan Road. Turn right on AMMONS Farm Road. Keep chain link fence and airport beacon on your left. Turn left at gate with Wings of Carolina banner. Park next to the Wings of Carolina Hangar. For Fly-In participants, parking is available on ramp in front of Wings of Carolina Flying Club hangar.
