

Things You Should Know for Safe Winter Flying

It may be the most wonderful time of the year, but winter flying introduces some hazards and challenges not found in warmer months. We will explore a variety of these hazards and discuss risk reduction strategies.

Directions: From Aviation Parkway, enter Gateway Centre at the traffic light and take the third driveway on the right. Blue Line is at the top of the hill at that entrance. Parking is available on either side of the entrance. Uber is available To/From the training center if flying into RDU. Allow extra time during rush hour.

A message from the National FAASTeam Manager
