

FAASTeam presents:

Monthly VMC Club Meeting - Jumpers Away

You want to fly to the airport where you will do your tandem jump. Your approach path would normally cross over the runway for a teardrop entry to the 45. You hear the radio call "Jumpers away" as you get close to the airport. What's the best way to enter the pattern without meeting up close and personal with any parachute jumpers? Let's discuss alternatives and options VMC Club, through its nationwide chapters, provides organized "hangar flying" focused on building proficiency in VFR flying. Believing that safety and proficiency are developed through education and experience. Monthly meetings use real world scenarios to engage our members and allow them to share and build their experience. For all pilots, student pilots and anyone thinking about flying. Bring iPad or other device to view charts. Click on the link below and register TODAY.
