

FAASTeam presents:

# Monthly IMC Club Meeting - A Dizzying Approach

You are low-time IFR pilot. You are flying in IMC as a solo pilot. When you start the approach, you feel dizzy and the instruments are not acting as you think they should. What do you do? Gain control? Go missed? Shut your eyes? Here on the ground is the time to consider this.... Let's discuss alternatives and options..... IMC Club, through its nationwide chapters, provides organized "hangar flying" focused on building proficiency in instrument flying. Believing that safety and proficiency are developed through education and experience. Monthly meetings use real world scenarios to engage our members and allow them to share and build their experience. For IFR pilots, IFR students and anyone thinking about flying in the clouds. Bring iPad or other device to view instrument procedures. Click on the link below and register TODAY.

## Event Details

Wed, Dec 14, 2022 - 19:00 EST
