

FAASTeam presents:

Aerospace Medicine - Basic Med and You

GAJSC study of General Aviation Loss of Control Accidents show that a significant number of pilots in those accidents were operating with a known medical deficiency and/or impaired. The effects of commonly prescribed and over-the-counter drugs can comprise pilot's ability to fly safely. BasicMed – an alternative to traditional pilot medical certification is available to most pilots who are not engaged in flying for compensation or hire. FAA's Office of Aerospace Medicine provides medical certification guidance and medical information to pilots.

Directions: From US 421 take exit 190 and turn east on NC-62N which merges with (Liberty Rd) then in 1.2 miles Turn left staying on NC-62N go 2.5 miles and Turn right onto Smithwood Rd go 1.1 miles and Turn right onto Aviation Rd. Proceed on the gravel drive to the Causey Aviation Avionics Hanger.

If Flying In - Please be sure to check the NOTAMS for 2A5!
Currently the Approaches are NOTAMed "NA"
