

How to Survive a FAA Ramp Check!

Many of us have heard about getting ramp checked, but how many of you have actually had one? Does the thought of getting one make you nervous? Once again, the best cure for fear is knowledge. In this presentation, Dan Kelly, FAASTeam Program Manager, will explain what inspectors are looking for and what to know so you can be ready if and when it happens. This seminar qualifies for Wings credit.

Directions: From US-58 (A. L. Philpott Hwy) turn N on Spencer Penn Rd., Travel .5 miles and turn left onto Airport Rd. The FBO parking lot will be on the left. If flying in, please park your aircraft as directed or in the designated parking/tie down sites.

A message from the National FAASTeam Manager
