

How to Survive a FAA Ramp Check!

Many of us have heard about getting ramp checked, but how many of you have actually had one? Does the thought of getting one make you nervous? Once again, the best cure for fear is knowledge. In this presentation, Dan Kelly and Tim Haley FAASTeam Program Managers, will explain what inspectors are looking for and what to know so you can be ready if and when it happens. This seminar qualifies for Wings credit. Prior to attending a safety seminar, please review and abide by current CDC, State, and Local health guidelines.

Directions: From Rt 211 go South on Rt 133 (Long Beach Rd SE) Turn right on to Airport Rd SE and follow that around and the FBO entrance will be on the left.

A message from the National FAASTeam Manager
