

GSO FSDO FAAS Team presents:

The 300-Dollar Inspection - What a Great Deal!

Topics :

The \$300 Annual and WINGS continued. Emphasis on the value of detailed aircraft inspections conducted by qualified aircraft mechanics with Inspection Authorization.

Background:

Inadequate maintenance and inspections are common accident causal factors. Aircraft owners seeking bargain-priced mechanical services may see unairworthy aircraft returned to service following cursory inspections.

Directions: Personal vehicle: ample parking in terminal parking lot (free). Proceed through the FBO and follow directional signs to the aircraft ramp then proceed North (left when exiting). The Old Fire Station is North of the FBO just past the large maintenance hangar on the left.
Fly-in: park on ramp as directed by line personnel. Proceed to the Old Fire Station adjacent to the large maintenance hangar with direct access from the aircraft ramp.

A message from the National FAASafety Team Manager

Earn your WINGS to get a chance to win a prize. Go to
