Event Details

Thu, Aug 21, 2025 at 18:00 EDT

**Wayne Community College -
Aviation Systems Technology
Campus**

224 Aviation Drive
Aviation Classroom Building
Pikeville, NC

Contact: Mike Crumpler

919) 965-1477

rednekpilot@earthlink.net

Select #: EA39138732

FPM DAN KELLY n/a

FAASTeam Program Manager Dan Kelly will be discussing proper pattern procedures when operating at a Non-Towered airport such as pattern entries, communications, collision avoidance between VFR and IFR traffic and other pertinent information that will keep you safe when operating in the traffic pattern.

Driving

The listed address will get you to the end of Aviation Drive. Wayne Community College's hangar and classroom building will be on the right at the end of the road. You may park in the spaces between the two buildings. Go to the WCC Classroom Building.

Flying

There are a number of tie down spaces in front of the GWW FBO and the WCC Hangar. There are walk-through gates on either side of the hangar and the FBO. After passing through one of those gates, continue across the parking lot to the WCC Classroom Building.

*******Note:** There is a lot of construction going on in the car parking area between the FBO and the WCC classroom building. The areas being worked on are moving around quite a bit. If you fly in, you will likely need to walk around the southwest end (left side as you are facing it) of the WCC hangar and then walk along the fence to the classroom building. If you are driving, you may have to park across the street from the classroom building. *****

A message from the National FAASafety Team Manager
