

The FAA Safety Team presents:

Helicopter Safety with Joe Brigham

Imagine it's a summer afternoon in the White Mountains; your helicopter is loaded with people, fuel, and gear; how good is your flight planning? Are your skills up to date when the GPS stops working? Just how do you maximize your performance and that of your machine? Are you prepared for an emergency over thousands of acres of forest? Spend the afternoon with Joe Brigham working through helicopter safety scenarios. Lunch will be served after the seminar!

Directions: See Map Link to the Four Star Aviation and North AndoverFlightAcademy Hangar.

A message from the National FAASTeam Manager

The new WINGS—Pilot Proficiency Program is great! Check it out now!
