

FAASTeam and the Boston FSDO presents:

# Tail Wheel Transition: What's in it for me?

Join Paul Santopietro and Bob Berlyn in this exciting FAASTeam Safety Seminar for an interactive discussion on how tail wheel training can actually make you a more proficient pilot. In the second half of this presentation we will discuss some past accidents and how YOU can break the chain! Immediately after, the International Cessna 120/140 Association will sponsor a cook out.

**Directions:** See Map Link to the First Floor of the Terminal Building. For easy parking use the old Main Terminal Lot.

## A message from the National FAASTeam Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
