

The FAA Safety Team presents:

What You Don't Know Can KILL You!

If you are involved in an accident during low level maneuvering flight there is a 58% chance it will be fatal. Please join Paul Carroll and Frank Sherman in this exciting FAASTeam Safety Seminar for an interactive presentation concerning things that pilots can do to avoid becoming a maneuvering flight statistic. In the second half of this presentation Ken MacDonald will be discussing Runway Accident Prevention! FREE BBQ at 5:30 p.m.

Directions: See Map Link to the SRE Building.

A message from the National FAASTeam Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?
