

Boston FSDO, FAASTeam presents:

Boston FSDO Flight Instructor Forum & Meeting

The Boston FSDO has once again started up quarterly meetings & discussions on the issues facing pilots and instructors, not only nationally, but also in the local area. Instead of a presentation, it will be an interactive discussion of issues, focusing on the safety of instruction. This event will focus on what do WE really know as instructors and what should we expect of students. Instruction for the development of "Real World" pilots will be a significant focus. What are our individual instructor professionalism/expectations, instructional strengths & weaknesses and student expectations will be explored. We are looking to have active instructors, of all experience levels join us, join in the discussion and learn some best practices. This is also a great opportunity to meet today's & tomorrow's aviation professionals. Don't miss it. Click on the link below and register TODAY.

Directions: The Airport Hangar/Conference Room is the next building west of the Terminal and is light green in color. It is easily accessed from the main parking lot.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
