

Experimental/Amateur Built First Flight Considerations

This safety seminar is important for anyone preparing for either the first flight of a homebuilt aircraft – or a newly restored aircraft. The seminar will cover Flight Test Plan considerations, such as In-Flight and Ground Emergencies, Pilot Safety and Emergency Equipment, Training Options, Documentation, Taxi & Flight Tests. See add'l info below. To register for this event, click on the link below TODAY.

Directions: Please park either near the tower or on the grass, leaving the spaces in front of the terminal for the café patrons. Enter the big blue Executive Flyers hangar (hangar nearest the tower) – the seminar is inside the hangar.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
