

Do You Plan To Have an Accident Today? Date corrected to June 13

Correct date: June 13. A high number of accidents on the NTSB daily report show accidents involving take off, landing and maneuvers around the airport. Ken will explore the issues that confront pilots when they begin to taxi, maneuver, take off and land on the surface of the airport. We will examine the knowledge and skills that pilots must have to operate safely in an airport environment. The causes of these accidents and incidents will be explored to provide migrations to prevent them. Don't miss this exclusive event. Click on the link below and register TODAY.

Directions: Airport Hangar - Located about 500 feet west of the Terminal Building.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
