

## Crosswind Landings

Crosswind landings are the number one real-world weather-related cause of accidents in general aviation. Richard Collins said they are the hardest thing to learn in aviation. Naturally many pilots are apprehensive and lack confidence in crosswind conditions. The Mastering Crosswinds seminar demystifies the crosswind dilemma by looking at the different components. First we frame the crosswind problem. Then we look at the aerodynamics relevant to crosswind operations. Finally we discuss crosswind operations, including taxi, takeoff and landing. This gives the pilot a better understanding and provides the basis for increased skill and confidence.

**Directions:** On the grounds of AirVenture 2015, the EAA Proficiency Center is located on W. Waukau Ave. between Knapp St. and Airport Drive.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

### Event Details

**Mon, Jul 20, 2015 - 09:00 CDT**

**EAA Pilot Proficiency Center**

3000 Poberenzy Road

Oshkosh, WI 54902
