

## The ADS-B Connection!

The Federal Aviation Administration's (FAA) goal of improving aviation for the future is steadily coming on line. Understanding pilot and equipment requirements to navigate in the new Air Traffic Control System can be complex. We invite you to attend the event for an update on the FAA's goals as well as becoming familiar with ADS-B "in" and ADS-B "out" equipment, airspace requirements, and time lines. Click on the link below and register TODAY.

**Directions:** This seminar is being held at the NexAir Hangar, located at the Plymouth Airport (KPYM). The hangar is located via East Meadow Road, Gate 6, approximately 2 miles west of the Main Airport Terminal. Pilots flying to KPYM should use "Kilo" taxiway to the south side of the airport for tie downs.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
