

## Learn to Turn

Loss of Control remains on the NTSB “most wanted” list. Most fatal loss of control accidents occur while maneuvering, i.e., while turning. Interact with Rich as he discusses the proper function of the primary flight controls and the relationship between speed, G-load, and angle of attack.

**Directions:** EAA Pilot Proficiency Center  
AirVenture 2016

Venue location: Four Corners (Knapp Street & Celebration Way)

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the “Contact Information” area of the meeting/event notice. Note that two weeks is usually required to arrange services.
