

FAASTeam presents:

AvCamp for Instructors

This event is a first of specialized camps for instructors that need or want to develop specialized skills as an instructor. It will focus on basic flying skills that are the foundation in tailwheel instruction; with emphasis on takeoffs, landings and loss of control in those flight regimes. The morning session is open to the first 50 registrants and will include instructional briefings on these subjects and factors. After lunch (provided), selected instructors will have the opportunity for actual air time sponsored training sessions in tailwheel aircraft. (more information below) NOTE: Tailwheel qualification(s) is not required. Click the link below and register TODAY.

Directions: From I-295 take Exit 9A toward Rt 146 South and Rt 116 South. Keep/turn to the right to stay on 116 South. After approximately 1 mile take a left at the lights to turn onto Rt 123E. Airport is approximately 1 mile further.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
