

FAA Safety Team and the Boston FSDO presents:

EAA IMC Club Meeting - Mastering the Art of Instrument Navigation

The EAA IMC Club provides a "hangar flying" experience organized around instrument flight, in order to promote safety, education, and proficiency.

Every meeting consists of a scenario presentation and group discussion, discussions of unusual or interesting charts, changed rules and procedures, and member experiences. We also have occasional guest speakers.

Bring your EFB, your experience, and your questions, and be ready to participate.

All are welcome. You do not need to be an EAA member or rated instrument pilot to attend.

Directions: By plane: leaving the airport, turn left on Perimeter Road, and then right on University Drive. Webster Hall is the second building on the right, a seven minute walk from the airport.

By car: free parking is located across from Webster Hall on University Drive.

Go in front entrance, walk up the steps, and turn left down the hallway. Room 227 is on the end of the hall to the left.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
