

FAA Safety Team and the Boston FSDO presents:

# **EAA IMC Club Meeting - Mastering the Art of Instrument Navigation**

The EAA IMC Club provides a "hangar flying" experience organized around instrument flight, in order to promote safety, education, and proficiency.

Every meeting consists of a scenario presentation and group discussion, and discussions of unusual or interesting charts, changed rules and procedures, and member experiences. We also have occasional guest speakers.

Bring your EFB, your experience, and your questions, and be ready to participate. All are welcome. You do not need to be an EAA member or rated instrument pilot to attend.

**Directions:** By plane: please contact coordinator (James Carlson [carlsonj@workingcode.com](mailto:carlsonj@workingcode.com)) if you need transportation between the airport and the meeting location. The airport is about 3.5 miles away by car. By car: ample metered parking is available at the library. The meeting will be in the Large Meeting Room.

**A message from the National FAASTeam Manager**

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASteam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
