

## Maintaining Proficiency at Home

Keeping the rust off your flying skills is sometimes easier said than done. It's not always possible to get out to the airport during a busy week, especially when you also have to fight with questionable weather. Thanks to at home simulation equipment, there are ways to stretch those flying muscles. This presentation will provide practical ideas for both VFR and IFR pilots to maintain proficiency at home.

**Directions:** EAA Pilot Proficiency Center

AirVenture 2016

Venue Location: Four Corners (Knapp Street & Celebration Way). Across from the EAA Membership Pavilion

### A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
