

## Backcountry Operations

Operations in the backcountry require a unique set of skills. The backcountry often has shorter strips in confined areas. It requires a departure from what many of us learned in primary training. An in-depth look at how a different style of arrival is used to generate a precision approach to exact spot and a short rollout. These lessons can be used whether you are looking to dip your toe in the backcountry and start exploring recreational airstrips or if you just want to become a safer more precise pilot.

**Directions:** EAA Pilot Proficiency Center  
AirVenture 2016

Venue Location: Four Corners (Knapp Street & Celebration Way). Across from the EAA Membership Pavilion

### A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

### Event Details

**Wed, Jul 26, 2017 - 11:30 CDT**

**Pilot Proficiency Center**

Knapp Street & Celebration Way  
Oshkosh, WI 54902
