FAA Safety Team presents:

EAA IMC Club Meeting - Mastering the Art of Instrument Navigation

The EAA IMC Club provides a "hangar flying" experience organized around instrument flight, in order to promote safety, education, and proficiency.
Every meeting consists of a scenario presentation and group discussion, and discussions of unusual or interesting charts, changed rules and procedures, and member experiences. We also have occasional guest speakers.
Bring your EFB, your experience, and your questions, and be ready to participate.
All are welcome. You do not need to be an EAA member or rated instrument pilot to attend.

Directions: By Plane: Ammon Center is located at the customs ramp off taxiway Bravo, on the air transport side of the airport. Call ahead to National Flight Simulator (603 880-0044) to arrange an escort on the ramp; do not exit your aircraft without an escort.
By Car: After passing under the airport welcome sign, turn left at the sign for cell phone and Long-Term Parking. Follow Ammon Drive past the parking lots and go straight at the stop sign. Parking for Ammon Center is on the right.
Go in front entrance. Once inside, walk up the steps straight ahead and curve to the right. Room 216 is down the hallway to the left.
