

The Next Frontier in Aviation - Large Unmanned Aircraft in US Airspace

A quick review of the Part 107 rules and Special Rule for Model Aircraft (Section 336 of the 2012 FAA Modernization and Reform Act), what it takes to get permission to fly a large research drone, and what the operation looks like from the morning briefing to the afternoon debrief. Click the link below and register TODAY!

Directions: There is no GPS address for airport GATE 4, but 400 Holt Rd, North Andover, gets you close. At the stop sign (says Clark St), turn RIGHT. About 150 yards on the left is GATE 4. Call the cell number on the paper taped to the yellow post for someone to come let you in. Due to the locked airport gate, please try to arrive a bit before the 7 PM program start. If flying in, see Add'l info below.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
