

## IFR Tips for VFR Pilots

Explore the resources and techniques that keep IFR pilots safe in challenging conditions. These include extra information from IFR charts, ATC communications available to everyone, insights into the national airspace system, GPS and lighting aids that assist no matter what the weather, and non-towered operations from an instrument perspective. The best part about all these tips and tricks: No instrument rating required.

**Directions:** EAA Pilot Proficiency Center  
AirVenture 2018

Venue Location: Four Corners (Knapp Street & Celebration Way), across from the EAA Membership Pavilion. [Click here for a map.](#)

### A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
