

FAA Safety Team presents:

Mastering Crosswinds

Crosswind landings are the number one real-world weather-related cause of accidents in general aviation. Richard Collins said they are the hardest thing to learn in aviation. Naturally many pilots are apprehensive and lack confidence in crosswind conditions. The Mastering Crosswinds seminar demystifies the crosswind dilemma by looking at the different components. First, we frame the crosswind problem. Then we look at the aerodynamics relevant to crosswind operations. Finally, we discuss crosswind operations, including taxi, takeoff, and landing. It gives the pilot a better understanding and provides the basis for increased skill and confidence.

Directions: EAA Pilot Proficiency Center

AirVenture 2018

Venue Location: Four Corners (Knapp Street & Celebration Way), across from the EAA Membership Pavilion. Click here for a map.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
