

## Oops! I Bought a Lemon!

A story of a surprise, a grounded aircraft, and what it took to get it flying again, with a focus on owner/operator responsibilities. Learn about what your responsibilities may be as an owner, pilot, or operator and how things can slip through the "cracks". Learn what it takes to keep an aircraft airworthy and what you can do on your own.

**Directions:** IF DRIVING IN:

Turn onto Holt Rd off Rt-125 in No. Andover (about 1 mile north of where Rt-133 turns East). At end of Holt Rd, turn right (Clark St). GATE 4 will be on the left.

No GPS address for airport GATE 4, so when near 400 Holt Rd, follow the EAA106 signs. Ideally, please arrive between 9:00-10:30 when we will have someone manning the gate for entry. Outside those times, please call the number on the paper taped to the yellow post for someone to come let you in.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
