

Creating a Personal Proficiency Plan

Proficiency isn't built in a single Flight Review; it takes careful goal setting and a considered approach to reach and maintain real proficiency. That's why the FAA recommends every pilot develop and follow a Personal Proficiency Plan, but how many do it? In this TechTalk, we'll cover the FAA guidance and industry best practices. Then, we'll build an example Proficiency Plan and discuss tips to keep it interesting.

Directions: EAA Pilot Proficiency Center

AirVenture 2019

Venue Location: Four Corners (Knapp Street & Celebration Way), across from the EAA Membership Pavilion. Click here for more information.
