

FAA Safety Team presents:

Thunderstorms

For most, summer flying is here. So are thunderstorms. With them comes lightning, hail, strong winds (including updrafts/downdrafts), torrential rains, low visibility, and even tornadoes. Let us get reacquaint you with thunderstorms. We'll help you better understand the environmental conditions required for thunderstorms; the various cloud types and development stages; and show you how to get more from all the thunderstorm forecasting, reporting and detection tools at your disposal.

Directions: EAA Pilot Proficiency Center

AirVenture 2019
