

FAA Safety Team presents:

# **ATC and You - VFR and the Services We Provide**

There are many options available to VFR pilots. Participants will learn the reasons it is a good idea to request VFR flight following, how to request it and what they can expect. Special VFR can make all the difference to VFR pilots in weather difficulty, but would you know how and when to use it? VFR On-top procedures can help pilots on an IFR flight plan but how do you request it? Attendees to this class will understand how to use these tools, including the proper phraseology, to help make the most of operating in the National Airspace System.

**Directions:** EAA Pilot Proficiency Center

AirVenture 2019

Venue Location: Four Corners (Knapp Street & Celebration Way), across from the EAA Membership Pavilion. Click here for more information.
