

New England FAASTeam presents:

# **Safety Wire Lock Nuts and Nutty Pilots - Why You Need to Preflight Them**

Failure to properly secure aircraft components has led to system and component failures. Some of those failures have compromised powerplant and control system operation resulting in crashes. Learn what you can about detailed specifics on preflight items, safety wiring and even a little on preventive maintenance as an Owner/Operator, to avoid being that "nutty" pilot.

**Directions:** Please register for Safety Wire, Lock Nuts and Nutty Pilots - Why You Need to Preflight Them on May 26, 2020 7:00 PM EDT at the following link:

REGISTER HERE

or copy and paste the following url into your web browser:

<https://attendee.gotowebinar.com/register/3366347669859742222>

After registering, you will receive a confirmation email from CITRIX/Go-To-Webinar containing information about joining the webinar.

Upon registration, you will receive an email with the link to be used on the day of the event. WINGS credit will be awarded based upon the email used in the registration, so please use the same email address to register that you also use for WINGS.

We look forward to seeing you.

Registration on FAASAFETY.GOV is not required.

There are 1000 virtual seats. You need a computer or tablet to view the presentation.
