

FAA Safety Team presents:

IMC Club Meeting - ADM - Mastering the Art of Instrument Navigation

EAA/IMC Club, through the EAA's global Chapter structure, provides organized "hangar flying" focused on building instrument flying knowledge and skills. The program's network promotes a safety culture through continued education and believes that we develop safety and proficiency through education and real-life experience. Monthly meetings offer an opportunity to share in-flight experiences and valuable safety tips. Through the FAA Safety Program, aviation professionals provide informative WINGS presentations. You do not have to be an instrument-rated pilot to attend. Membership in the EAA/IMC Club is encouraged but not required to participate in this meeting. For more information and to take part in this event, click the link below and register TODAY!

Directions: Arlington Flight Services - Upstairs classroom. Aircraft spaces are available on the ramp outside the FBO, and just South in the transient area (near the cafe).

A message from the National FAASafety Manager

Earn your WINGS to get a chance to win a cash prize. Go to www.mywingsinitiative.org for more info.
