Representative JAMES DAVID
CARLSON n/a

The EAA IMC Club provides a "hangar flying" experience organized around instrument flight, in order to promote safety, education, and proficiency. The Nashua NH Chapter meeting draws participants from the southern New Hampshire and northern Massachusetts area.

Every meeting consists of a scenario presentation and group discussion, and discussions of unusual or interesting charts, changed rules and procedures, and member experiences. We also have occasional guest speakers.

Keep your EFB, experience, and questions handy, and be ready to participate.

All are welcome. You do not need to be an EAA member or rated instrument pilot to attend.

This is an on-line event only. You may register for WINGS credit in advance if you wish by visiting this site:

<https://www.workingcode.com/imc-club/wings-signup.html>

If you use a Zoom display name that doesn't include your full name or email address, please make sure to note your display name in the registration or provide me with your FAA WINGS account ID (email) during the meeting so that I can match it with the Zoom participants list. Otherwise, it may not be possible to provide WINGS credit.
