

Beverly Airport (KBVY) Controller-Pilot Forum

In this seminar you will meet Mary Parsons, KBVY Air Traffic Control Tower Manager. We will discuss everything from fees at the airport to what happens during an emergency, the upcoming emergency exercises and review IFR routes (again). And of course, a free discussion/ask us anything! As we approach the busy summer flying season, this will be a great opportunity to review local procedures and get great insight and tips from the Air Traffic Control professionals that make KBVY a safe and enjoyable airport!

Attendees will be given an opportunity to ask open questions regarding general aviation safety towards the end of the session.

Ample parking is available - free. The building is on the East side of the airport in Beverly, MA.

Proceed to the new Airport Terminal building near the airport runways. The conference room will be to the right once you enter the building.

A message from the National FAASafety Team Manager
