

US Helicopter Safety Team Peer Pilot Mental Health Support Program

An introduction to the Peer Pilot Program created by the US Helicopter Safety Team (USHST). This program is accessible to all types of pilots, including fixed wing. The program is confidential, free of charge, nonjudgmental of the issues and users of the service, and provides trained staff and peer volunteers. This is a safe place with other pilots who understand the unique pressures of aviation. This session will introduce how the program works and how pilots can access the USHST's resources. This is a session that is highly sought after and that you shouldn't miss.
