

Beverly Airport (KBVY) Pilot/Controller Forum

Join other pilots, and an air traffic controller from BVY tower, and local instructors to discuss safety, operations, and procedural topics when flying at or around the Beverly Airport. These forums provide you with a chance to meet an air traffic controller from Beverly Tower and ask questions. Topics will cover the difference between filing a VFR flight plan, receiving flight following (VFR advisories), and flying on an IFR clearance. We will also discuss security procedures and updates at the airport, as well as brief attendees on upcoming airport changes, construction, and events. You may also ask any other questions you have for the air traffic control tower controller.

If flying in, proceed to the new terminal building.

If driving in, ample parking is available - free. The building is on the East side of the airport in Beverly, MA.

Proceed to the new Airport Terminal building near the airport runways. The conference room will be to the right once you enter the building.
