

EAA IMC Club Meeting - Non-GPS Navigation

The EAA IMC Club provides a "hangar flying" experience organized around instrument flight, in order to promote safety, education, and proficiency.

Many of us expect to fly with GPS navigation everywhere. But there are times when we must use conventional ground-based navigation sources. This meeting will feature a scenario with a localizer-based departure procedure, and discuss the kinds of mistakes that can happen with non-GPS navigation and how to avoid making those mistakes.

Bring your EFB, your experience, and your questions, and be ready to participate.

All are welcome. You do not need to be an EAA member or rated instrument pilot to attend.

If you are flying in: park at the main ramp. Walk on the taxiway to the right of Midfield Cafe, between the buildings. The Airport Authority building is the third on the right, just before the Nashua Jet Aviation building.

Event Details

Wed, Mar 11, 2026 at 18:30 EDT
Airport Administration Building
93 Perimeter Road
Nashua, NH

Representative JAMES DAVID
CARLSON n/a

If you are driving in: the parking lot is on the right side of Perimeter Road, across the street from CrossFit Nashua, near the gate. The Airport Authority building is on the right, inside the fence.

Go in the door on the south side of the building. Take the first left in the hallway, and then an immediate left into the stairwell. The meeting is in the room at the top of the stairs.

Meeting space is provided by Nashua Airport Authority.

Contact me or visit the administration page to be signed up for our low-volume group announcements list:
