

Spring and Summer Weather is On the Way - Is Your Airplane Ready

Nice weather is on its way as Spring and Summer peek out under the tundra. As we thaw out our hangars and the ramp, are our aircraft ready for flight? Can we just tune it up, put air in the tires and fly?

Join us with Aviation Safety Inspector David Cardullo along with the Rhode Island Pilots Association as we discuss how you can make sure your airplane is ready. What maintenance work are pilots legally able to do on their own and what needs a maintenance professional? Even if we CAN do the work, SHOULD we?

The presentation will be an hour long and a Q&A will be offered at the end for the pilots that own their own aircraft.

If you fly in, park on ramp near Flight Level Aviation. If you drive in, there is free parking in front of the FBO.

Signs will direct to presentation room.

Event Details

Sat, Apr 4, 2026 at 09:30 EDT

Flight Level Aviation - KSFZ

30 Jenckes Hill Road

Smithfield, RI
