We Need Pilots ! Pilot safety operational considerations are numerous requiring diligent regular review especially given the variety of volunteer flight types. The considerations for safely flying a child facing challenging medical outcomes are quite different than flying endangered turtles to rescue facilities.

This webinar will help pilots of all types to identify basic and advanced safety considerations. We are striving to create a resource to share safety practices and flight experiences..

If not already in the WINGS Pilot Proficiency program please join us. Visit www.FAASafety.gov to enroll and find other helpful information.
