

World Helicopter Day - USHST Safety Seminar

Schools, youth groups, and educators are encouraged to attend! If you've ever wanted to spark an interest in aviation, this is a great opportunity for students to see helicopters up close, meet industry professionals, explore career paths, and even try their hand at flying in the simulator.

Two hours of AMT/WINGS credit for those who participate in the Safety Seminars held by USHST. There will be outreach about programs offered such as the Peer Pilot Support Program and Rotorcraft safety. There will be discussion on maintenance factors and rotorcraft career human factors.

Come spend the day with us, meet the crews who operate these amazing aircraft, explore helicopters from multiple organizations, and help us celebrate the rotorcraft community and safety on World Helicopter Day!

Event will be held on main ramp. Look for signage.
