

High Altitude Survival -The History Science and Design of Flight Suits

Join EAA Chapter 1454 and the Fitchburg Pilot's Association for an exclusive presentation by Dr. Shane E. Jacobs, Chief Technologist at the David Clark Company.

From pioneering early 1940s anti-G suits to engineering the latest full-pressure suits for NASA's Artemis astronauts, the David Clark Company has led life-support innovation for over 80 years. Dr. Jacobs will dive into the intense physiological challenges of moderate to high-altitude flight and the engineering innovations required to keep pilots alive.

Location: FPA Aviation Center, 563 Crawford Street, Fitchburg, MA

Follow Signs upon arrival.

Parking available on ramp for fly in participants.
