

IMC CLUB OWD BED - In-Cruise Avionics Failure

We will review EAA scenario as well as 3 scenarios from recent GA flights as well as those that you may bring to the group.

Bring your EFB, your experience, and your questions, and be ready to participate. All are welcome.

The EAA IMC Club provides a "hangar flying" experience organized around instrument flight, in order to promote safety, education, and proficiency.

Every meeting consists of a short IMC scenario presentation followed by a group discussion, discussions of unusual or interesting charts, changed rules and procedures, and sharing of personal experiences. At times there are Guest Speakers.
