

FAA SAFETY TEAM

Safer Skies Through Education

IN PARTNERSHIP WITH THE
LA COUNTY FD

AVIATION ACCIDENT FIRST RESPONDER TRAINING

Be Prepared • Be Trained • Save Lives

JANUARY 20 & 21, 2027
0800 – 1600

HAWTHORNE AIRPORT
Hawthorne, CA

**ATTEND
ONE DAY ONLY!**

TRAINING FOR FIRST RESPONDERS, PILOTS AND BYSTANDERS

Gain the knowledge and hands-on skills to respond effectively to aviation accidents.

ITINERARY

LEARNING ABOUT DIFFERENT TYPES OF AIRCRAFT

Understand the unique characteristics and risks associated with various aircraft (general aviation, commercial, helicopters, etc.).

EMERGENCY EGRESS POINTS

Identify and locate egress points on different aircraft types.

HAZARDS LOCATION

Recognize and avoid potential hazards (HAZMAT, fuel, electrical, structural, etc.).

COMMUNICATION WITH ATC

Learn how to effectively communicate with Air Traffic Control during an accident response.

AIRPORT PERSONNEL

Learn how airport personnel operate on scene and work with first responders.

HANDS-ON CUTTING STATION

Get practical experience with the proper techniques and tools to safely extricate through aircraft materials (aluminum, composite, and other structures).
