FAASTeam presents:

Hybrid - Predicting The Low Altitude Environment - FPAW Fall 2026 Meeting

This 1.5 hour session will examine needs, gaps, lessons learned, opportunities, and active efforts for advancing predictive solutions for low-altitude aviation weather hazards and constraints. Operations ranging from Part 121 (commercial air carrier) to UAS services and future AAM will be examined in the context of their low altitude forecast needs, and in typical FPAW fashion, discussion topics will be prioritized on the fly through shared conversations between panelists and the audience

This is being offered as a HYBRID Event.

The in-person seats have been filled but there are still online seats open.

To register for the Teams Meeting, you MUST CLICK HERE: FPAW 2026 Fall Meeting | Friends and Partners in Aviation Weather | FPAW

When registering, for the affiliation portion, please use WINGS as your affiliation in the FPAW meeting registration form

(Scroll to the bottom and fill out form depicting if you are attending remotely or in-person)
