FAASTeam presents:

The Cockpit Mindset

Spend the evening with the RIPA group speaker, Robert, as he discusses what goes on in the cockpit and how to manage your decision making. This task is greater that it seems when you start feeding in task management, multi-tasking, distractions and communications. When weather enters the picture, all resources are operating at max. Learn how to start breaking down the steps in a methodical way and start organizing mitigating strategies while still on the ground to avoid in-flight overwhelming tasks. Live Q&A will be available during and after the presentation.

This event will be held at Chelo's Banquet Hall at the back of the building, located at 2225 Post Road, Warwick, RI.
