Select #: EA6344579

FPM JAMES PHILIP ADAMS

This program is meant to increase the level of safety in certification, maintenance and operation of Experimental Amateur Built Aircraft. At this special event, featured speakers from the FAA and industry examine accidents to learn about the issues of inadequate transition training and instruction prior to operation, as well as maintenance and construction considerations. Sponsored by EAA Chapter 1310. Coffee and donuts at 9:30am and cookout to follow the seminar! See the "Additional Seminar Information" for all the details.

Directions: Skylark Airpark is located 1/2 mile south of the CT-RT 140 intersection. Event is held in the hangar.

A message from the National FAASafety Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?
