FPM JAMES PHILIP ADAMS

Do you know the three leading issues associated with airmen medical certification? Attend this exclusive briefing presented by featured speaker Dr. Robert Dodenhoff. Dr. Dodenhoff is an FAA Airman Medical Examiner, FAASafety Team Representative and active instrument pilot. At this briefing he will discuss three of the most common issues facing pilots during the medical certification process. They are Hypertension (high blood pressure), diabetes (Type 1 & 2) and sleep apnea. He will discuss each of these medical conditions in detail and how they can affect you and the airman medical process. Attend this informative briefing and let Dr. Dodenhoff show you how to stay healthy and continue to meet the FAA medical certification requirements into the future! Bring your questions. Refreshments provided by Interstate Aviation.

Directions: I- 84 exit 33, to CT-72 W to CT-177, turn Rt. on North Washington St., 1/2 mile turn Rt. on Johnson Ave. Briefing at the Interstate Aviation hangar.

A message from the National FAASafety Team Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?
