

Annual Tail Wheel and Experimental Aircraft Fly In and Safety Briefing

Exclusive safety seminar specifically designed to refresh your tailwheel flying skills! Coffee at 9:30 AM with a Cookout to follow the safety meeting! Regardless of whether you're an experienced tailwheel pilot or just getting started, our featured speakers will discuss all aspects of tail wheel operations including hand propping, takeoffs, landings, slips, go-arounds, crosswinds and maintenance. Is an experimental aircraft in your plans? Attend this seminar and learn what it takes to build, maintain and transition into an amateur-built aircraft! Sponsored by EAA Chapter 1310.

Directions: Skylark Airpark is located 1/2 mile south of the CT-RT 140 intersection. Event held in the hangar.

A message from the National FAASafety Team Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?
Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
